

Film Stars!

Helen Ripper and Sandra Hanson from our Childhood Constipation Service recently visited recording studios in Oxford to make an educational video on the use of Macrogols in Childhood Constipation. The video is aimed at parents and professionals, assisting with the understanding of childhood constipation and what can be done to help.

professional contact for this common but often misunderstood childhood problem. The filming was tremendously nerve wracking but we both had a fun day with lots of laughs. We feel thrilled to have had this opportunity to make this educational video and would like thank everybody involved with the project thus far. Watch this space because as soon as the editing has been finalised we will be publishing our film!!"

Sandra said "We are hoping that this video will assist GP's, as they are usually the first
