

Rosemary Cafe Opening

To coincide with Dementia Awareness Week May 16th saw the official opening of Ebony Wards new Rosemary Café. The ribbon was cut by Sarah Collins, General Manager of Adult Medicine and Giselle Broomes, Acting Director of Operations. Afterward refreshments including sandwiches, scones and cakes were served to the patients and their families, all kindly donated by Carillion.

Denise Hylton-McIntosh, Senior Sister said *"The Rosemary Café is an area created on Ebony Ward where patients, their family and staff can sit and enjoy the feeling of being in a real café. It allows patients time to sit and relax away from their beds but still be cared for by the staff. It is also used during meal times. Our thanks go to everyone who made this café area possible including the Soroptimist (Philip and Valarie) who donated the pictures and who also voted on what name the area could be called."*
