

The Modernisation & Innovation Bubble

M.I.B

Do you want to know more?

Do you have a project you would like to showcase?

GET INVOLVED!!

There are a number of projects, initiatives, innovations and service developments being undertaken to help with performance and to improve efficiency, productivity and patient care.

The M.I.B is for staff across the Trust to share best practice and showcase their innovations and give other staff the opportunity to learn about improvements made and reflect on what could be done better and how they can get involved.

The M.I.B is being held in the Orthopaedic Seminar room on Level 3. Details of innovations and good news stories are being displayed on the notice boards, and presentations are being arranged for teams to showcase their work. Staff will have the opportunity to ask questions, raise any concerns and make suggestions.

The Orthopaedic Seminar room is available twice a week for all staff to visit and look at the projects taking place across the Trust. Presentations will also take place on a regular basis which all staff will be invited along to.

The launch date for the M.I.B is 13th October 2016 at 15.30-17.00. Further dates and times, along with information of displays and presentations will be emailed on a regular basis, so look out for this!

The Service Improvement Team have been contacting teams asking them to provide information for the notice boards and to set up some dates for them to present their projects.

This is an exciting opportunity to create some momentum around our Transformation Programme and share ideas about how we can improve the care that we deliver to patients.

Come and showcase your project & learn more about our Organisations visions
